Directors' Report

For the half-year ended 30 September 2011

Review and results of operations

Net profit

Directors are pleased to report that the Group achieved a record interim net profit after tax (attributable to equity holders of the Company) of \$102.3 million in the half year to September 2011, in line with recent guidance provided to the market. The result was up 54% on the previous corresponding period and was generated from revenue of \$667.5 million (up 22% on the September 2010 half).

All divisions within the ALS laboratory services business recorded increased profit contributions and margins over the previous corresponding period (refer page 3). In particular, strong growth in global mineral exploration activity lifted demand for the analytical testing services provided by ALS Minerals division. Increased sample flow, combined with earnings generated by Ammtec (acquired November 2010) and Stewart Group (acquired July 2011) served to deliver a 79% increase in segment profit contribution over the September 2010 half-year. ALS Environmental division delivered strong gains in revenue and profit contribution, particularly within the Australian and North American regions.

ALS' Coal, Tribology and Industrial divisions all recorded solid growth in earnings compared with the previous corresponding period and the Reward Distribution hospitality supplies division returned to profitability during the September 2011 half.

The translation of foreign earnings was impacted by a stronger Australian dollar during the period. The average exchange rate against the US dollar was USD1.06 for the September 2011 half-year (previous corresponding period: USD0.90).

Directors have declared a partly franked (50%) interim dividend of 95 cents per share, payable on all ordinary shares (2010: 65 cents, partly franked to 50%). It will be paid on 19 December 2011 on all shares registered in the Company's register at the close of business on 13 December 2011. The Company's dividend reinvestment plan remains suspended.

Directors' Report

For the half-year ended 30 September 2011

Review and results of operations (continued)

Contributions from business segments were as follows:

ALS Minerals	2011 \$'000	2010 \$'000	Increase
Revenue	267,674	152,697	75.3%
Segment contribution	95,016	53,089	79.0%
Margin (segment contribution to revenue)	35.5%	34.8%	

Strong growth in global mineral exploration activity led to ALS Minerals division processing a record number of samples during the half-year to September 2011. Investments in increased operational capacity over the past two years enabled the business to service this growth successfully. The interim financial results of the division were boosted by contributions from Ammtec (acquired November 2010; Revenue \$39,053,000 and Contribution \$7,238,000) and Stewart Group (acquired July 2011; Revenue \$21,096,000 and Contribution \$5,834,000).

ALS Environmental	2011 \$'000	2010 \$'000	Increase
Revenue	173,034	155,668	11.2%
Segment contribution	40,016	35,305	13.3%
Margin (segment contribution to revenue)	23.1%	22.7%	

The Australian and North American regions of ALS Environmental posted strong growth in revenue and profit contribution during the period, primarily the result of winning new contracts and clients. It is anticipated that additional project work will deliver improved financial results for other geographies in the division in the second half.

ALS Coal	2011 \$'000	2010 \$'000	Increase
Revenue	39,393	36,150	9.0%
Segment contribution	9,630	8,725	10.4%
Margin (segment contribution to revenue)	24.4%	24.1%	

Contracts for new work in the South African and Canadian operations of ALS Coal division delivered improved revenue and margin performance in those regions during the period. The Australian business performed in line with the previous corresponding half-year, recovering well from natural disasters which contributed to a slow start to the year.

ALS Tribology	2011 \$'000	2010 \$'000	Increase / (Decrease)
Revenue	15,143	15,852	(4.5%)
Segment contribution	2,823	1,901	48.5%
Margin (segment contribution to revenue)	18.6%	12.0%	

Whilst all regions within the ALS Tribology division generated improved revenue and segment contribution as measured in local currencies, exchange rate differences resulted in lower reported sales revenue when translated into Australian dollars. A focus on cost management produced significant margin improvement particularly in the North American business.

ALS Industrial	2011 \$'000	2010 \$'000	Increase
Revenue	60,240	57,452	4.9%
Segment contribution	8,252	6,979	18.2%
Margin (segment contribution to revenue)	13.7%	12.1%	

ALS Industrial division produced improved revenue and margin performance during the half year, despite the divestment of its asset management business unit in July 2011. The acquisition of Austpower Engineering in October 2011 will significantly increase the division's presence in the power generation sector and strengthens its position in providing asset care services to the power, oil & gas, resources and infrastructure industries in Australia.

Directors' Report

For the half-year ended 30 September 2011

Review and results of operations (continued)

Campbell Chemicals	2011 \$'000	2010 \$'000	Increase/ (Decrease)
Revenue	45,490	74,058	(38.6%)
Segment contribution	3,304	4,436	(25.5%)
Margin (segment contribution to revenue)	7.3%	6.0%	

Campbell Chemicals division generated lower revenue and contribution levels during the period; the fall being directly attributable to the sale of the Cleantec business unit in December 2010. Excluding the direct impact of the divestment, the division's revenue and segment contribution grew by 2.4% and 4.7% respectively compared with the previous corresponding period.

Reward Distribution	2011 \$'000	2010 \$'000	Increase
Revenue	66,572	58,638	13.5%
Segment contribution	2,008	(1,755)	n/a
Margin (segment contribution to revenue)	3.0%	(3.0%)	

The Reward Distribution hospitality supplies business returned to profitability during the half year to September 2011, following the implementation of a revised approach to product markets, brands and the division's operational cost base.

Events subsequent to balance date

Austpower acquisition:

On 13 October 2011, the Group acquired Austpower Engineering for \$28 million plus a potential future earn-out depending on financial performance over the next two years. Austpower is an industrial inspection and engineering business, based in Newcastle NSW, providing advanced inspection services to the power generation industry in Australia and will be part of the ALS Industrial division. The acquisition serves to strengthen ALS Industrial's position as the premier provider of advanced technology, engineering-led, asset care services to the power, oil & gas, resources and infrastructure sectors in Australia.

Columbia Analytical Services acquisition:

On 31 October 2011, the Group acquired US-based environmental, food and pharmaceutical testing company Columbia Analytical Services (CAS) for \$34 million (AUD equivalent). CAS is based in Kelso, Washington State and operates six laboratories across the United States. The acquisition positions ALS Environmental as the number two US environmental group by revenue and establishes a small foothold for the Group in food and pharmaceutical testing in the USA – an important step in the strategy to develop a global business in this sector.

Bank loan re-financing:

In November 2011 the Group executed loan facility agreements with a number of Australian and Canadian banks. These floating rate facilities replace existing facilities maturing on or before 31 May 2012 and provide the Group with committed bank loan funding lines totalling AUD 201,064,000 for three years maturing in November 2014 (refer note 7).

Currency	Amount (\$'000)	AUD equivalent (\$'000)

USD	40,000	41,064

Other than the matters discussed above, there has not arisen in the interval between the end of the half-year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial periods.

Acquisitions

Austpower acquisition:

On 13 October 2011, the Group acquired 100% of Austpower Engineering for \$28 million plus a potential future earn-out depending on financial performance over the next two years. Austpower is an industrial inspection and engineering business, based in Newcastle NSW, providing advanced inspection services to the power generation industry in Australia and will be part of the ALS Industrial division. The acquisition serves to strengthen ALS Industrial's position as the premier provider of advanced technology, engineering-led, asset care services to the power, oil & gas, resources and infrastructure sectors in Australia.

Columbia Analytical Services acquisition:

On 31 October 2011, the Group acquired 100% of US-based environmental, food and pharmaceutical testing company Columbia Analytical Services (CAS) for \$34 million (AUD equivalent). CAS is based in Kelso, Washington State and operates six laboratories across the United States. The acquisition positions ALS Environmental as the number two US environmental group by revenue and establishes a small foothold for the Group in food and pharmaceutical testing in the USA – an important step in the strategy to develop a global business in this sector.

Given the timing of the above acquisitions the Group is in the process of determining the accounting treatment required, and will include detailed disclosures in the 31 March 2012 financial statements.

Bank loan re-financing

In November 2011 the Group executed loan facility agreements with a number of Australian and Canadian banks. These floating rate facilities replace existing facilities maturing on or before 31 May 2012 and provide the Group with committed bank loan funding lines totalling AUD 201,064,000 for three years maturing in November 2014 (refer note 7).

Other than the matters discussed above, there has not arisen in the interval between the end of the half-year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the directors of the Company, to affect significantly the operations of the Group, the results of those operations or the state of affairs of the Group in subsequent financial periods.

Accordingly, we do not express an audit opinion.
