

Burlington lab is moving!

March 1, 2018

ALS Tribology is pleased to announce that we are moving our current Burlington, Ontario laboratory operation to a new location!

Our new facility will allow us to expand our fluid analysis services and allow for continued growth. There will not be any changes to our contracts with clients and vendors or to our regional or location-based staff.

The new laboratory will be operational on March 1, 2018. Samples addressed to our current location will be forwarded to the new facility; however, this may result in increased sample transit and turnaround time. For the fastest service, please send samples to the following address beginning February 26, 2018:

ALS Tribology
5036 South Service Road
Burlington, Ontario L7L 5Y7
T +1 905 332 9559
E csr.burlington@alsglobal.com

We are excited about our new home and the opportunities this move will present to allow us to better serve our customers. Please do not hesitate to contact the laboratory or contact me directly with any questions or concerns you may have.

Sincerely,

John Walsh
Regional Business Manager, Canada
