June 28, 2019

Mr. Ron McLeod
ALS Environmental – Burlington
1435 Norjohn Court, Unit 1
Burlington, ON L7L0E6

Laboratory ID: 9020
Effective Date: 06/28/2019

Dear Mr. McLeod:

SUBJECT: Reciprocal Certification

The information supplied to this office originating from the State of New Jersey, Perry Johnson Laboratory Accreditation, Inc., and your laboratory has been reviewed. Based on the New Jersey certification of ALS Environmental – Burlington, the Michigan Department of Environment, Great Lakes, and Energy (EGLE) will accept the results generated by your facility for compliance monitoring under the Safe Drinking Water Act, 1976 PA 399, as amended. The results that will be accepted are for the following contaminants and certification levels:

Organic Chemistry

Certified Parameters:

2,3,7,8-TCDD (Dioxin) (via U.S. EPA Method 1613B)

Our acceptance of results and certification of ALS Environmental – Burlington is contingent on your continued certification by the State of New Jersey. Additionally, your certification is contingent on the submission of acceptable proficiency test sample results from a state approved supplier on a running 12-month basis throughout the certification period and the results of any on-site inspections conducted by the State of New Jersey or its agents. Our certification of your facility will expire on June 30, 2020. Forward any new certificates and on-site inspection report(s) once you renew your certification with the New Jersey Department of Environmental Protection. Provided you maintain fully certified status in New Jersey you will be reissued reciprocal certification for the State of Michigan.

If you have questions regarding this information, please contact me by phone at 517-335-9219 or by email at lundyg@michigan.gov.

Sincerely,

Gregg A. Lundy
Laboratory Certification Officer
