Ms. Tracey A. Earle  
Quality Assurance Manager  
ALS Environmental  
4388 Glendale Milford Road  
Cincinnati, Ohio 45242

Dear Ms. Earle:

In accordance with the authority stated in 40 CFR 141 and 142, Certification Officers from the U.S. Environmental Protection Agency Region 8 have reviewed your request for reciprocal certification of drinking water contaminants along with the documentation that was attached. Based upon the recommendation of my staff, I hereby grant continued reciprocal certification for the state of Wyoming and all tribal public water systems in Region 8 to ALS Environmental located in Cincinnati, Ohio, for the parameter listed below. This certification is based on the National Environmental Laboratory Accreditation Program (NELAP) accreditation of your laboratory by the New York State Department of Health and on the performance of your laboratory in the analysis of proficiency testing samples.

Parameter	Method(s)	Certification		
		Begin	End Date	Status
<b>Group: Asbestos</b>				
Asbestos	100.1	4/2/2016	4/1/2017	Reciprocal
	100.2	4/2/2016	4/1/2017	Reciprocal

Certification will remain in effect for the above period under the conditions that the laboratory remains certified by the state of New York NELAP for the above parameter, that the laboratory follows the specified methods, and that Water Supply proficiency testing samples are successfully analyzed by the laboratory for the above parameter and methods once per year. It is the responsibility of the laboratory to request certification beyond the stated date.

If you have any comments or questions, please contact Marcie Tidd, Region 8 Drinking Water Laboratory Certification Program Manager, at (303) 312-7764 (tidd.marcie@epa.gov).

Sincerely,

Richard D. Buhl  
Assistant Regional Administrator  
Office of Technical and Management Services
