Oklahoma Department of Environmental Quality TNI Laboratory Accreditation

State Laboratory ID: 1301

EPA ID: CO01099

Certificate #: 2018-002

ALS Environmental Laboratory - Fort Collins

225 Commerce Drive
Fort Collins, CO 80524

has been accredited for the analysis of environmental samples for analytes listed on the attached Scope of Accreditation.

Continued accreditation is contingent upon successful on-going compliance with OAC 252:307 which was promulgated and adopted pursuant to the Oklahoma Environmental Quality Code (Code), 27A.O.S. § 2-4-101 *et seq.*

Specific methods and analytes certified are cited on the laboratory's Scope of Accreditation.

The Scope of Accreditation, inspections reports and accreditation status are on file and may be obtained from:

Oklahoma DEQ, State Environmental Laboratory Services Division,
Laboratory Accreditation Program,
707 N Robinson, P.O. Box 1677, Oklahoma City, Oklahoma 73101-1677,
(405) 702-1000, www.deq.state.ok.us.

ISSUED: 9/1/2018

EXPIRES: 8/31/2019

Chris Armstrong, State Environmental Laboratory Services Division Director

David Caldwell, Laboratory Accreditation Program

This certificate is valid proof of certification only when associated with its Scope of Accreditation.

Executive Director

OKLAHOMA DEPARTMENT OF ENVIRONMENTAL QUALITY

MARY FALLIN
Governor

August 8, 2018

Dear Laboratory Directors:

We have received your laboratory's Application for Accreditation, appropriate fees, and reviewed your proficiency testing results, inspections, and quality system. After reviewing all the information/documents received, the DEQ is issuing certification for the analytes as listed in the enclosed Scope of Certification. **The enclosed 2018-2019 certificate is valid proof of certification only when associated with its accompanying Scope of Certification. The certificate supersedes any certificate of accreditation.**

As a reminder, your laboratory must analyze a proficiency testing sample from an approved provider for each certified method and analyte by July 15th of each year. The laboratory must forward the results of these proficiency testing samples to the DEQ within 30 days from the date your laboratory receives them. In addition, it is the laboratory's duty to notify the DEQ within 30 days of changes in laboratory location or ownership, major analytical equipment, test methodology, or supervisory staff as detailed in Subchapter 3 of the OAC 252:301 and OAC 252:302 or Subchapter 5 of the OAC 252:307 Rules.

If your laboratory wishes to renew its accreditation, an application, appropriate fees, changes in your Quality Assurance Manual, and laboratory procedures must be received by June 15, 2019.

PLEASE REMEMBER TO REVIEW YOUR SCOPE OF ANALYTES FOR ACCURACY!

The scopes have been redesigned to accommodate the laboratory requested for not having the suspended analytes listed with good standing analytes. Listed under "**Parameters Not Accredited**" will list all analytes that have been reviewed and deemed not in good standing either by proficiency testing or inspections and quality system deficiencies.

Any errors noticed after September 15th will have to be processed as interim accreditation. If you have any questions regarding this memorandum or certificate please contact Mr. David Caldwell (405) 702-1039.

Sincerely,

A handwritten signature in black ink that reads 'David E. Caldwell'.

David E. Caldwell
Laboratory Accreditation Manager
State Environmental Laboratory Services Division
