

Drinking Water Testing Packages

ALS offers drinking water testing services at our 16,900 square-foot laboratory in Jacksonville, Florida.

Our experienced staff has expertise in testing drinking water for inorganic and volatile organic compounds. We have instrumentation equipped to handle drinking water testing and experience testing for regulated and non-regulated compounds of concern.

Our commitment to the provision of safe and clean drinking water is unwavering. The number of municipalities, utilities, and drinking water companies that choose ALS demonstrates our position as one of the leading drinking water analysis suppliers in the world today.
