

Whitehorse Laboratory

The ALS laboratory in Whitehorse services clients in the Yukon and surrounding area. The laboratory capabilities includes analyses for short holding time parameters in water to service the mining, wastewater and drinking water sectors in addition to hydrocarbon in soil analyses for the Contaminated Sites industry as part of ALS' innovative "Quick" program.

ALS also provides these value-added services:

- Sample reception and login for all other analyses performed by the flagship full-service laboratory in Vancouver, BC
- Sampling supplies and technical support for analytical and sample container requirements
- Pick-up and delivery services
- Access to a large coldroom for sample storage

Our Capabilities Include

Water

- Physical Tests: pH, EC, TSS, Turbidity, Colour
- Anions: Alkalinity, Acidity, Cl, F, SO₄
- Nutrients: NH₄, NO₃, NO₂

Soil
