

Yellowknife Laboratory

Located in the heart of the mining industry in northern Canada, the ALS laboratory in Yellowknife, NT offers a wide range of analytical testing services, specializing in time-sensitive water analysis. ALS is CALA accredited and backed by the full range of services from the ALS global network. With this access, the laboratory is able to offer complete analytical packages to all remote, northern clients while ensuring timely, high quality analytical results.

ALS delivers customer service at a level unsurpassed by others in the industry. In addition to quality analytical testing, we provide many value-added services, including customized CoC forms, flexible report styles, customized EDDs and after-hours and weekend sample receipt. Our clients also have instant access to their laboratory results with Webtrieve™. At ALS, we consistently meet our clients' needs and expectations. We simply offer a level of service that is difficult to find in northern Canada.
