

ALS Perth Environmental Laboratory Moving Location in the New Year!

Dear Client,

On behalf of the ALS Perth team, we would like to wish you and your family a safe and happy Festive Season. We thank you for your custom over yet another challenging year and look forward to working with you in 2018.

MANAGING PROJECTS OVER THE CHRISTMAS/NEW YEAR PERIOD:

The Perth office is preparing and planning to have contingencies in place during our move over the New Year to be able to continue to service our clients (information about the move will be sent separately). As such, ALS would like to gain a better understanding of any projects that may need particular attention over the Christmas and New Year period. This will help to ensure the laboratory and client services operations are adequately resourced to assist you in achieving desired outcomes. ALS Perth laboratory will be open during the Christmas/New Year period except for the mandated public holidays and weekends.

Key Times and Dates

Data for samples received by Friday, 8th December can be reported by Friday, 22nd December

MON	TUE	WED	THU	FRI	SAT	SUN	
18	19	20 Samples by 12pm	21	22 Open until 12pm	23	24	
25	26	27	28	29	30	31	
Public Holiday	Public Holiday	Laboratory open 9am-5pm: Client services (WA) closed					
1	2	3	4	5	6	7	
Public Holiday	Laboratory open 9am-5pm						

If you are going away on holiday and would like results ready upon your return, please feel free to submit samples with a date you require final reports noted on your CoC.

-  BY 12PM: Perth samples submitted for interstate
-  Laboratory open
-  Laboratory open until 12pm
-  Laboratory open, Client services (WA) closed

If you need to submit samples outside of these hours please contact us for alternate arrangements. If you are planning site works or submitting samples in the period leading up to Christmas or in the Christmas/New Year period please contact your Client Manager or local Environmental Service Representative to discuss your project timelines and required service delivery.

Note: Special consideration should be given to analytical holding times, particularly water samples for semi-volatile analysis. Also, extra care should be taken to ensure that all COCs are clear and accurate and do not require clarification, especially if samples are submitted just before you go on holiday.
